# LITEGATION™

## CONSULTING. eDISCOVERY. TRIAL TECHNOLOGY.

### The Leaders in Litigation Support

## Data Mapping, Identification & Preservation
- Consultative approach to mapping the infrastructure where data exists
- Efficient, defensible preservation workflow, proportional to the case at bar

## Forensic Collections
- Full chain of custody and secure storage of media
- Servers, computers, social media, mobile devices, backups, etc.

## Data Processing & Hosting
- Assess and cull data based on scope, exposure, budget and deadlines
- Web-based review tool – analytics & advanced searching with any browser

## Managed Review
- Attorney and paraprofessional teams
- Sophisticated reporting and user metrics

## Production Services
- Load files, extracted metadata & searchable text
- Privilege/exception logs, bates labeling & rolling productions
